

The International Journal of Esthetic Dentistry (IJED) is a quarterly journal that publishes peer-reviewed articles of the highest quality regarding all aspects of esthetic dentistry, with the goal of enhancing the international exchange of knowledge in this multidisciplinary field. Manuscripts presenting case reports (of failures as well as successes), treatment planning sessions, innovations in methods or products, and clinical and technical applications of esthetic dentistry are invited. In addition, guest editorials may be solicited periodically by the editorial board.

Submission Instructions. Manuscripts should be submitted online at www.manuscriptmanager.net/ijed. Manuscript texts should be uploaded as a Word file with tables and figures included at the end of the document. No paper version is required. Online submissions are automatically uploaded into the reviewer assignment schedule and are therefore processed immediately. Resubmitted manuscripts should also be submitted in the above manner. Please note that supplying electronic versions of tables and figures upon resubmission will expedite publication if the manuscript is accepted.

Review/Editing of Manuscripts. Manuscripts will be reviewed by the editors and at least two reviewers with expertise within the scope of the manuscript. The publisher reserves the right to edit accepted manuscripts to fit the available space and to ensure conciseness, clarity, and stylistic consistency, subject to the final approval of the author/s.

Adherence to Guidelines. Manuscripts that are not prepared in accordance with these guidelines will be returned to the author/s before review.

Manuscript Preparation

- **Manuscript format.** Text should be typed double-spaced with 1-inch margins all around. All pages should be numbered. The first page should include the title of the manuscript (descriptive but as concise as possible) and the names, degrees, titles, professional affiliations, and full addresses of all authors. Telephone and fax numbers as well as an email address must also be provided for the corresponding author, who will be assumed to be the first-listed author unless otherwise noted.
- **Title.** Maximum of 12 words. Adding a subtitle is possible.
- **Abstract.** A 150- to 250-word abstract must be included.
- **Abbreviations.** The full term for which an abbreviation stands should precede its first use in the text unless it is a standard unit of measurement.
- **Trade names.** Generic terms are to be used whenever possible, but when trade names are used, the name and address (city and country) of the manufacturer should be provided parenthetically at first mention.
- **Figures.** Maximum of 25 figures (not figure compositions!).
- **Legends.** Figure legends should be typed (double-spaced) as a group on a separate page and included in the manuscript file.
- **Tables.** Each table should be logically organized, typed as a separate page in the manuscript, and numbered consecutively. The title and footnotes should be typed on the same page as the table.
- **References.** Maximum of 30 references. References should be typed on a separate page and included in the manuscript. Cite all references numerically, in order of appearance in the text. Limit references to those specifically cited in the text. Provide complete information for each reference, including names of all authors (if there are more than six authors, cite three only, followed by et al). Avoid using abstracts as references. Do not include unpublished data or personal communications in the reference list; cite such references parenthetically in the text and include a date. Use the following style for the reference list:
