Title: Full-Mouth Reconstruction

Short text:

Foreword by Jeffrey Okeson

This textbook presents a modern and comprehensive approach to restoring dental function while recognizing the broader complexity of the masticatory system. It guides clinicians in diagnosing and managing temporomandibular disorders and other orofacial pain conditions that may influence dental treatment. Emphasizing careful diagnosis, patient history, and evidence-based decision making, the book helps dentists avoid common misconceptions and sequence treatment appropriately. With practical strategies and up-to-date knowledge, it supports clinicians in achieving functional, esthetic, and patient-centered outcomes. An essential resource for dentists seeking a more holistic and scientifically grounded approach to occlusion and restorative care.

Contents

Chapter 1. Introduction/Decision-Making

Chapter 2. Comprehensive Clinical Assessment

- Questionnaires
- Systemic Factors Affecting TMDs and FMR: Perspective for a Reconstructive Dentist
- Clinical Examination

Chapter 3. SDS Concept for Vertical Dimension of Occlusion

- Digital Workflow in Full-Mouth Reconstruction
- Fundamentals of Vertical Dimension of Occlusion
- Myths Surrounding the Vertical Dimension of Occlusion
- Five Red Flags When Increasing VDO
- SDS Part 1 – “Smile Design”
- Implementation of the SDS Concept In Practice
- Bite Registration
- Materials

Chapter 4. Interdisciplinary Treatment in Full-Mouth Reconstruction

- Ortho-Prostho-Surgical Teamwork
- Prosthodontics and Perio-Prostho Interface in Implant Dentistry
- Periodontal Plastic Surgery: Resective and Regenerative Approaches
- Management of Temporomandibular Disorders
- Sleep Conditions in the Context of the FMR Patient

Chapter 5. Definitive Prosthetic Treatment

- Dental Preparation for Indirect Restorations – Adhesive and Resistive Strategies for Posteriors and Anteriors
- Gingival Retraction
- Rubber Dam Isolation: A Key to Efficient Dental Practice
- Cementation
- Occlusal Adjustment
- Implant Occlusion
- Protective Nightguards and Maintenance for Patients After Full-Mouth
- Reconstruction (FMR)

Chapter 6. Cases

- Case Report 1: Severe Atrittion and Erosion
- Case Report 2: Severe Erosion and Gummy Smile
- Case Report 3: Prostho-Surgery Teamwork
- Case Report 4: FMR and Lip Lift in Sleep Apnea Patient
- Case Report 5: Ortho-Prostho-Surgery Teamwork

- Case Report 6: Ortho-Prostho-Surgery Teamwork
