Book information

Authors: Victor Clavijo
Title: Anterior Ceramic Restorations
Subtitle: Details That Make the Difference
Short text:

The objective of this superb book is to outline clinical protocols for ceramic restoration in the esthetic zone. From the basics of esthetic planning to the ins and outs of adhesive cementation, the author presents each topic in a logical sequence that is easy to follow and establishes this book as a go-to clinical manual. The exploration of each topic is based on scientific evidence and answers the triad of questions that matter most—when, how, and why each procedure can be performed. The full picture is developed with effective clinical cases that demonstrate the details that make the most difference to achieving optimal results. The concepts and cases in this book are intended to expand the range of clinical options any practitioner can provide in daily practice and put clinical excellence within reach.
