## Copyright statement as of 2022

The following copyright statement is valid for all articles and any supplementary material published in the Journal of Adhesive Dentistry as of 2022.

Authors retain the copyright of their article and the supplementary material.

Authors grant any third party the right to use the article and material freely as long as its original authors and citation details are identified.

The article and materials are distributed under the Creative Commons Attribution 4.0 International License (CC BY 4.0). If the article and the supplementary material cannot follow the CC BY 4.0 License, this must be clearly marked by the authors in the manuscript file at the time of submission.

In either case, the authors grant Quintessence Publishing the right to publish their article and make it available online for viewing and downloading by individuals. In addition, the authors allow Quintessence Publishing to translate their article into other languages, if requested by the publisher, and to also make this translated article available online for viewing and downloading by individuals.

### **Creative Commons Attribution 4.0 International License**

#### **You are free to:**

Share — copy and redistribute the material in any medium or format.

Adapt — remix, transform, and build upon the material for any purpose, including commercially.

#### **Under the following conditions:**

Attribution — You must give appropriate credit, provide a link to the license, and indicate if changes were made. You may do so in any reasonable manner, but not in any way that suggests that the licensor endorses you or your use.

No additional restrictions — You may not apply legal terms or technological measures that legally restrict others from doing anything that the license permits.

#### **Notes:**

The licensor cannot revoke these freedoms as long as you follow the license terms.

You do not have to comply with the license for elements of the material in the public domain or where your use is permitted by an applicable exception or limitation.

No warranties are given. The license may not give you all of the permissions necessary for your intended use. For example, other rights such as publicity, privacy, or moral rights may limit how you use the material.

The CC BY License, of which 4.0 is the most recent version, was developed to facilitate open access – namely, free immediate access to, and unrestricted reuse of, original works of all types.

Under this liberal license, authors agree to make their articles and the supplementary material legally available for reuse, without permission or fees, for virtually any purpose. Anyone may copy, distribute, or reuse these articles, as long as the author and original source are properly cited. Thus, CC BY facilitates the dissemination, transfer, and growth of scientific knowledge.
